

23 December 1983

MEMORANDUM FOR: Deputy Director for Intelligence
FROM: Director of Central Intelligence
SUBJECT: Analytical and Estimating Capabilities

In talking to our boss last evening I promised him the review I mentioned to you as I was leaving yesterday. Could you give some paragraphs on how we have augmented and sharpened our analytical and estimating capabilities and performance, including specifics on new areas, emphases, approaches, tie-ins with collection, working of liaison, service to consumers with examples which would give him a feel for what we've done with the support he has given us.
